

Mesa de Corte MKC

ESPECIFICAÇÕES TÉCNICAS

Model	MKC-0806L	MKC-1209L
Air pump power	2.3KW	4.4KW
Total rated power	3KW	6KW
Effective cutting area	800*600mm	1200*900mm
Overall size	2200*1100*1200mm	2600*1400*1200mm
Work characteristics	Any CAD software can be connected, computer-aided design and cutting can be carried out at the same time	
Cutting speed	300-1200mm/s	
Cutting thickness	≤6MM (based on different material)	
Cutting materials	Self-adhesive, cardboard, PP paper labels, various corrugated paper, yellow cardboard, red cardboard, honeycomb board	
Standard tools	pen, mark position, creasing tool, universal cutting tool, graphtec tool, CCD camera, small oscillating tool	
Feeding method	Standard automatic feeding	
Fixing method	vacuum system (with counter-blower)	
Repeat precision	≤0.01mm	
Software resolution	0.025	
Interface	Ethernet port	
Buffer memory	1G, fast transmission for multi-page large file	
Command mode	HPGL compatible format	
Control panel	7 inch color touch screen	
driving system	Imported servo motor, straight rail	
Voltage/Power	AC 220V/380V ± 10% 50HZ	
Working Environment	Temp: 0° ~ 35° Humidity: 35% ~ 80%
